This is a two day course with one key priority – you will leave the course at the end of day 2 with a completed self-evaluation (SE), fit for the purposes of presentation to governors and, if necessary, Ofsted.

You could be a headteacher who needs to update/ review your SE or a headteacher who is ‘starting from scratch’. Whichever, we feel that you will find the 2 days extremely beneficial. We will be using exemplar material generated on findings from Ofsted reports, guidance from HMI and the very best practice from schools themselves to facilitate your needs.

The course leaders are **John Atkinson**, an **independent education consultant** and former **Ofsted inspector**, and **Charlotte Atkinson**, a former **headteacher** and **independent education consultant**, who both have extensive experience in supporting schools in **self-evaluation** and **preparation for inspection**.
