

# Times tables; Learning without rote.

8<sup>th</sup> May 2019

Time:	Cost:	Address:
13:30-16:00	£75	Trinity Primary School, Stowmarket,

Join us to explore meaningful ways of teaching times tables for deep conceptual understanding not just as facts to bark!

What you'll learn:

- Learn tables as interconnected patterns
- Try out games and investigations to develop fluency and speed of recall without the stress and anxiety of weekly tests.
- Connected learning to concepts such as multiples, factors, fractions, scaling and much more.
- Teaching tables using the C-P-A approach
- Learn ways to practice daily with no stress (or internet)

**Discover how we can teach maths concepts and skills with depth to foster and encourage number sense which is essential for fluency in calculation.**
