Kath, I had my appraisal yesterday with my governors and Challenge Partner who is a Headteacher of an outstanding school and an Ofsted inspector. My governors interviewed each of my senior leadership team about my vision for the school and my performance as a Headteacher. They described me as inspirational, enabling, highly motivating and the most enthusiastic Headteacher they have ever worked for! They all said I have changed the culture of the school. My Challenge Partner informed my governors that changing the culture of a whole school is a significant achievement and is a characteristic of outstanding leadership. I credited this all on my NLP training with you. I said I am developing a coaching culture in the school. When my Challenge Partner asked if I had someone coming in to deliver the training I told her I was doing myself, using my NLP training. The next level of NLP will enable me to develop this further. Thus, one of objectives for next years appraisal is to develop coaching and my training needs are to attend NLP Masters in April. Thank you, lovely Kath! The NLP practitioner course with you has transformed me as a person and a school leader. You have the ability to impart knowledge through storytelling, to develop skills through your own expert modelling and to motivate through your energy and zest for living life to the full! Truly inspirational and transformational in all aspects of personal, family and work life.

TRACY McKENZIE, Headteacher, Britannia Primary School, Ipswich

*I just needed to let you know what a fantastic day I have had...am having... I have noticed and felt every interaction, particularly with children. Achievement assembly felt so good - I focused my words carefully and when they beamed and stood tall I anchored them....it was fantastic. You can see your words change emotions and make them stick! ...I'm buzzing - thank you for the gifts you have given me. I'm sending my Deputy Head on your next course!
Looking forward to doing more training with you!*
KYRSTY BEATTIE, Head Teacher, Kingsfleet Primary School, Felixstowe

Thank you wonderful Kath! You are the best thing! You gave us such clear techniques which we practiced so they are embedded and we feel confident to use them. I have been able to see the impact when I worked with X – it was incredibly empowering. Realising that I can control my reactions to experiences, to focus my energies on the present – and I can enable others to do it too!! If you haven't done this course be prepared to come out with a joyous and enlightened perspective on the world – and magic at your fingertips!
JEN SHACKLETON, Acting Headteacher, Thaxted Primary School, Essex

Thanks for stretching our minds and our lives. Have learnt so much from you! You have given me the confidence as well as the tools to go and bloody-well just do it!! I am walking taller and happier, with heaps more self belief!
SARAH RICHARD, Education Manager, Northumberland Education

*Your style was very engaging and enthusiastic. Enjoyed the range of practical exercises, the blend of participants, the materials, the high energy. I learned that rapid change is possible and doesn't need to meet the criteria of 'no pain, no gain!' I will use NLP for myself and am more confident taking on new and different challenges. I will use it to enthuse others and help them remove limiting beliefs, broaden their perceived choices and opportunities.
You are a role model for enthusiasm and humour I will carry with me always!*
JANET CATTINI, Head of Staff Development, London South Bank University

Kath, I cannot thank you enough for sharing your knowledge, your zest for life and spreading your 'Temple Magic'. The content of the course surpassed my expectation. It was delivered in an informative and thought-provoking way and the surroundings were beautiful. I felt so comfortable – I feel like I have been on a retreat!

Also I recognize I have the power to change futures, including my own!

It covers all the latest approaches to leadership, people development, influence, performance and creating change in the lives and behaviours of children, young people and other adults as well as yourself, and much more besides. This course is for people who are committed to reach for heightened

human excellence. No matter what level you are, or whether you work for a large or small school or company, or in mental health, health, or sports, in today's highly competitive world you need powerful tools to make sure you and those you connect with are performing at their best.

I have known Kathryn for many years and have been lucky enough to have worked with her at speaking, charity events, and on TV. She is indeed a very inspiring woman who works tirelessly to help others. Kathryn is always available to give advice or to be a mentor to those who need it. It has been an absolute pleasure and an honour to have worked with and befriended one of the stalwarts of our communities. I would certainly endorse and recommend her and all that she does via her fantastic Foundation and all the other causes she supports.

LEVI ROOTS, Dragons Den

So good to be on a course that was such fun! A jolly, human, and extremely knowledgeable and widely read trainer who gets a lot from life and is willing to share. Learned to believe in myself and to focus on strengths.

Learned to be more analytical and to consciously employ strategies.

JACQUI CAWKWELL-EAST, Advisory Teacher, Suffolk

Brilliant course. Thanks for all you have given me. I've had a huge boost in self-confidence. Learned to look at training in a broader and deeper context and to look at presentations as more than knowledge of content.

I now have the ability to change states.

HELEN NOTT, General Advisor

You have been highly influential in getting me personally to a better place.

I would love you to impact my staff in the same way.

I'm booking you for our Staff Development Day!

SARAH YOUNG, Headteacher, Sidestrand Hall Special School, Cromer

An excellent, rousing few days of training. Thank you! Your knowledge, humour and compassion were wonderful. Kathryn, you made us feel 'skilled' again! I learned so much; and had been feeling drained. This course was so exciting - you didn't know what was coming! Loved your 'treasure chests'

GAY WHENT, Primary General Advisor

As soon as I entered the offices on my first day, I was able to measure their energy levels. It was flat, really flat. In the past, I would have blamed myself or someone else, by saying, probably they don't like me or maybe they are racist etc. However, thanks to NLP, I feel I have totally changed, I just did the anchors that I did for my confidence boosting, and it worked like magic. I told myself that I was not going to let them drain my energy or deplete my energy. Kath, believe me, you have never seen such a confident Vongai. I used the Hara and the 7/11 breathing which was brilliant. Kath, you have really revolutionised my life and my life will NEVER EVER BE THE SAME AGAIN. Anyway, when I went to the office where I will be based, I told myself that saying that you always tell yourself, "They love me, they just don't know it yet!" That is such a powerful statement Kath. And for sure by the end of the first day, they all really liked me and in actual fact, I ended up providing some mini-coaching sessions to the contracts manager. I really felt larger than life. Kath its been a while since I last felt this way. I have spread word all over about NLP and Kath, you will have even more fully booked sessions I tell you. People are seeing the changes in my life, my language, my confidence, my physical appearance, the way I can now easily build rapport with people.

I might write a 100 pages on what has happened to me because of the NLP course.

VONGAI NYAHUNZVI, HR Manager London Southbank University

The Benefits of NLP

NLP will give you the ability to truly understand yourself, your colleagues, students, parents, and all those you connect with. It will also enable and empower you to present your ideas to individuals and groups effectively, and give you the ability to influence others to take the steps to achieve the results they want.

I am empowered! Watch out world! It was a very memorable experience. Learned how to 'spin' it, learned tracing and tonality, alchemy, and I have already helped a client access a calm peaceful place within.
BARBARA CAMERON, MA Counselling Lecturer, Grimsby

You can expect to increase influence, cooperation, collaboration, creativity, motivation, productivity, and revenues. You and your staff and clients will be more motivated, make better decisions, will be better able to manage change in our fast-changing world. You blew the guys away – I think you really took them by surprise! They have been using the skills and I have had such good feedback!
LIZ HOLDICH, Manager, Rainer Lincolnshire

I have never had someone who has inspired me as much as you. This is not an idle platitude but a statement of fact. And through your guidance & training a new path is opening up.
KEVIN REES, Psychiatric Nurse, Suffolk

An extremely positive experience which I will recommend to as many people as possible!! Thank you for helping me to get my oomph back! I enjoyed all of it and the interaction with like-minded people. Learning how to, very easily, change negative emotions in myself. Learned how important it is to use my mind in a positive way and how easily thought affects behaviour and state. I will use NLP in business and in my personal life to keep up my enthusiasm and boost my self-esteem. An extremely positive experience which I will recommend to as many people as possible!

She relates to everyone with sincerity and professionalism, thus creating the conditions for positive change.

PROFESSOR MONDER RAM, OBE

The best things were learning the magic of NLP and feeling good about being me, and meeting so many wonderful friends and having 7 days to enjoy the experience. It has opened up new epistemologies and taught me how to enjoy the ambiguity of language. I came to the course with the naivety of a child and I am enjoying the discovery of NLP as a magical new world. I will use what I have learned in all my management practise, partnership work and supporting families. In my personal life, I have learned how to alter states and I am amazed how effective this is. I will never see language and communication in the same way again!

That you for a truly life changing week!

CARRIE FORRESTER, General Manager, Sure Start Lincolnshire

You and your staff and students will be more resilient, more motivated, make better decisions, will be better able to manage change in our fast-changing world. You'll be more able to manage your own state and manage working relationships more effectively. This is the path to personal and professional Mastery.

I loved it! Very relevant material, fast moving with an inspiring leader. She was very professional in every way with a great sense of humour - makes a change from other courses! I particularly enjoyed learning about trainer styles and how to establish and maintain a positive personal state. Excellent. I want to come back again! LYN GOODWIN, Under Fives Liaison Teacher

Thanks to the inspirational influence of Kathryn Temple I am now fully on my life's path and have my toolkit and aligned action. Am heading in the right direction. Loving every minute and meeting some amazing people. Thank you!

WENDY SMITH, Paralympian

Kath Temple is the most generous person you will find in the space of Coaching and NLP. It is a blessing to have her coming to Gibraltar. Beyond coaching!

YAN DELGADO, Managing Director, Gibraltar World Music Festival

Whilst I could have done a course in Devon I travelled to Suffolk because Kath Temple had been highly recommended to me. I felt it was worth learning from someone as near to the source of NLP as Kath herself is. It proved to be a good move as I had a

great learning experience on one of the best courses I have ever been on; Kath's presentation skills alone were worth the money. It was, however, much more than excellent presentation. I left thinking a lot about a lot of things, to do with myself and my effect to others and that is exactly what I wanted to achieve. There is something for everyone in the course content and the value for me increases now, every time I use NLP. Kath is a great person and a great personality.

I recommend her courses without reservation to, not only Servicemen, but to all.

ADRIAN COLE, MBE, Royal Navy, Special Forces

What is NLP and why is it so powerful?

NLP is the how-to toolkit for success, happiness and emotional intelligence. It studies the structure of how humans think and experience the world. It is the science of personal achievement, belief and behavioural change and much more. It harnesses a highly effective methodology, advanced communication skills and a series of techniques for rapidly changing the thoughts, behaviour patterns and beliefs that limit people's potential and development. NLP examines the relationship between how we think and how we communicate, verbally and non-verbally, and how these affect our behaviour and emotions. It also shows you how language affects your neurology.

Kath Temple is one of the most truly inspirational people I have ever met. Not only was her fantastic (massive 'value added') NLP and EFT training a vital part of building my coaching practice, her ongoing support, mentoring and advice has been absolutely invaluable. Kath blends her deep integrity, her incredible skills in addressing blocks/limiting beliefs and her astute business acumen to provide a truly unique and outstanding mentoring service. You will not meet a more genuinely positive person, with that rare ability to 'lift' people through her own energy and her passion for helping professionals to develop their own potential. I can honestly say that working with Kath has been the best decision I have made in my professional and personal development, thank you Kath!

This course has significantly changed both my professional and personal life. It was the best course I have ever undertaken. It has given me so many fantastic skills and tools to work with. Both colleagues, friends and family have commented on the changes within me and how much more relaxed I am. I now know that I have the skills and confidence to succeed in all areas of my life. Absolutely fantastic!. The NLP Business Practitioner really enabled me to use the new skills and focus them on work related issues and identity. Lots of positive steps to take at work to truly improve the organisation. I've learned so many new skills and discovered the influence you can bring to others to place them in a positive state. I've learned to manage my own state and how to energise myself in difficult situations. I learned how to manage change in others to achieve a positive outcome. The I have had great fun this morning - Big success in the Senior Management Team, managed to get them thinking and listening (which is no small mountain to climb!!) even started on the Governor at 8:30 this morning and 'opened' the loop - thought it probably best to catch him first thing whilst he was still bleary eyed! Even had a few people comment on how fab my holiday must have been as I look so different and sound so relaxed! Thank you for everything.

I have already changed small practices within the office and have plans to make changes across the establishment.

EMMA DAVIS, HR Manager, HM Prison Service

The course has had a profound effect on my work and my life. I have decidedly more influence and impact and that has massively affected my team's performance and the organisation in a great way. Thank you!

JOHN LAVALLE, President, The Society of NLP

The NLP and NLP Masters have massively affected teaching and learning. Wow what can I say I am a changed person. After a whole week with my personal toolbox of change in use daily at work I can honestly say I have totally changed my whole approach both personally and professionally. From a little meditation to start the day, setting my intention and making sure I am the change I want to see I feel a massive shift in my own personal wellbeing but also supporting positive change in others. I constantly practice language patterns and through conversational change work have now got a young person who has not been in lessons for over a year in everyday for 1 lesson. I have worked with a serious self harmer who now has V+A=K wrote on her hand to remind her of the movie she plays in her mind and how the sound of her internal voice affects her physiology and the urge to self harm, she has not harmed since. I did the Circle of Success with a teacher who was being observed and he got his first outstanding and ranted and raved about it lol. I did some EFT with a girl who has serious panic attacks and takes hours to calm down and I had her calm and back in her lesson within 45 minutes. Oh my goodness I could go on. My office is never empty. I cannot thank you enough for teaching me the skills to make positive changes to myself personally but also to others. I absolutely love that I can use my little box of tricks to help and support those who just need a gentle nudge in the right direction. The 10 days was the most intense learning experience I have ever had but the most rich. I have taken away so many things and I will never forget it! Like I said to my friends it was like ripping me out of my comfort zone twizzling me round until I was dizzy and then bringing me back to the earth with a bump armed with a myriad of cool tools for change. I highly recommend anyone to do this course with the most fabulous teacher whose infectious passion for NLP and positive change immerses you in a journey of self discovery personally and professionally. On another note still cracking up about the day 7/learning difficulties day which was my breakthrough day lol. " when the student is ready , the teacher will appear" never a truer word I was certainly ready and boy did you teach! Thanks Kath and I will definitely be doing the EFT when I can. If there's anything I can ever help you with or you need a volunteer please keep me in mind. Also wanted to let you know that since I saw you I have been back to the hospital and there has been some real changes, inflammation has reduced and scans better than I have had in a long time, eye pressures have gone down and I have no bitterness towards the condition anymore and have such a different attitude towards it. Thanks to you my whole attitude towards the condition has shifted and because of that I feel so much better for it. Just wanted to say thanks!

So wished I had done it years ago!

This wild tiger of a woman would appear not be aerodynamically built for speed but show me the human that can hold pace with her. I shelter in her slip stream offering me protection from any passing negative ions and that proverbial boot up the jacksey.

A challenging and endearing wench for sure.

HUGH CALLACHER, CEO The Missing Kind, Cambridge

2 weeks have passed now since the training and NLP has become integrated in to all aspects of my life. The Masters training helped to embed and further develop the tools and skills gained on practitioner training, as well as adding more tools to the toolkit. I am now able to use NLP techniques with confidence and I've already had some amazing results. One student that I've used NLP techniques with told me this week that she's continued using them - with her family and friends as she felt they'd made such a difference to her and enabled her to make decisions and move on with her life!!! One thing is for sure NLP works and it really does help to change lives and promote positive futures .

LINDA NICHOLS, Behavioural Consultant, Suffolk

Kathryn is professional, supportive, positive and innovative.

I think she has a rare combination of skills. She has been a key speaker at our conferences and has been the only trainer we have employed to score a straight 100% excellent from our evaluation forms.

ANNE FRANCIS, Senior Co-ordinator, Enterprising Women's Network

Kath Temple has elevated me to a place I thought I'd never get to. I have absolute confidence in what I'm taking forward and I have an absolute passion and it shows. I've got exciting events and retreats planned in the UK and overseas for the coming year. It's been every single penny well spent. Put your life in an amazing place! Anything IS possible! Off to meet a hero David Attenborough today, then Massachusetts tomorrow to meet with global organisations who have joined our charity alliance (& Jean-Michel Cousteau our new president). News in today - we have Gok Wan, Stephen Fry, and Bill Bailey coming to my whale festival! You helped me to fly Kath Temple.

IAN ROWLANDS, Director, Planet Whale

When I was looking for a coach and mentor to help me take my business to the next level I was lucky enough to find Kath Temple. Kath has the ability to hold a bigger vision people she works with to grow into. She has great business acumen and never loses sight of the importance of kindness and trust in all dealings. Kath is quick, clever, warm and great fun to work with. Her inspiration and knowledge has been incredibly valuable to me as I have have continued to expand my business, my income, my confidence, influence and impact. I would thoroughly recommend her.

KATIE BOTTEN, Author 'The Professional Woman's Guide To Giving Feedback

After the programme I had to make a presentation to over 200 people and was able to apply the tools and skills I learnt. I would not have been so successful if I had not attended. I am now finding that I am using these new found skill- sets in the business and reaping new benefits. I am now in the process of setting up a Care Home as an additional business. It has allowed me to kick start these aspirations.

SHANTOSE KAUR, Enigma Consulting

Dynamic course leader! Learning a new way of approaching problems. Enjoyed the peer support. Learned how to temper my responses in times of stress. I will use NLP within my working environment especially as mine tends to be quite confrontational.
