

# DEVELOPING LITERACY THROUGH THE ARTS

This workshop will focus on using music and art to develop literacy. Children learn in different ways, and through using more creative subjects, they can develop their literacy skills.

You will:

- Develop musical language
- Develop ways to use literacy in music
- Understand how to write words for songs
- Develop art-related language
- Develop ways to incorporate literacy in art

Teachers will feel that they have developed their own musical and artistic skills and are able to apply them creatively in the classroom. They will also understand that through the arts, literacy skills and understanding can be developed. This practical method could potentially breakdown the barriers some children have to literacy.

**Cost £40**

Date: 15<sup>th</sup> November 2018 4-6pm  
Venue: Westley Middle School  
Facilitator: Fran Hart & Kerry Allan
