Proposed Dates: 27 November 2019 for EYFS practitioners

Course Details: A day for EYFS practitioners that explores the Talk for Writing process in the early years. The day will look in detail at the 10 key areas of practice and provision that lead to good outcomes for children and prepare them well to enter Year 1 as writers. I will bring with me an audit tool for participants to use back in their own settings linked to this. As part of this day, I will work with groups of children to demonstrate modelled invention and guided invention. This is a key area of practice that support vocabulary development and compositional skills to ensure that as children's transcriptional skills develop they are able to create stories beyond basic simple sentences.
